

Mohammad Ali Ismael

JUNIOR SOFTWARE ENGINEER

Manual Testing | Automation Testing | Front-End Development

Location: Doha, Qatar | Phone: +974 30381813

Email: mohammadaliismael2002@gmail.com | LinkedIn: [LinkedIn Profile](#) | GitHub: [MohammadIsmael2002](#)

PROFESSIONAL SUMMARY

Junior Software Engineer with a Bachelor's degree in Software Engineering and training in Software Quality Assurance (Manual and Automation), Python, front-end development, and Microsoft Office. Experience in computer instruction and data entry, with skills in user support, troubleshooting, instructional materials, data validation, and documentation. Knowledge of Object-Oriented Programming (OOP), HTML, CSS, JavaScript, and software testing. Detail-oriented and adaptable, seeking an entry-level software engineering or QA role.

EDUCATION

Bachelor's Degree in Software Engineering

Zarqa University - Zarqa, Jordan

2026

WORK EXPERIENCE

Computer Instructor | Business Development Center (BDC)

Apr 2026 - Jun 2026

- Delivered structured computer training sessions combining clear explanations with hands-on practical exercises.
- Prepared instructional materials and practical activities covering computer applications and digital tools.
- Supported learners during laboratory sessions, resolved basic technical issues, and monitored learning progress.

Data Entry Clerk | Kahramas Company | Part-Time

Jul 2026 - Present

- Entered, updated, and validated information in spreadsheets and digital systems with strong attention to accuracy.
- Reviewed records for completeness, corrected inconsistencies, and maintained organized, reliable datasets.
- Organized electronic files and prepared routine reports using Microsoft Excel, Word, and other Office tools.

PROJECTS

Sugar Bloom || [GitHub](#)

Technologies Used: HTML5, CSS3, JavaScript, PHP, MySQL

- Developed a full-stack bakery ordering system with user authentication, product browsing, a shopping cart, and pickup or delivery checkout.
- Built an admin dashboard for managing customer orders and updating order statuses, with secure data storage in MySQL.

Hospital Management || [GitHub](#)

Technologies Used: PHP, MySQL, PDO, JavaScript, HTML5, CSS3, Bootstrap, PHP Sessions

- Developed a multi-department hospital management system that allows patients to register, book appointments, submit medical inquiries and complaints, and track their medical information through a patient portal.
- Implemented coordinated workflows between reception, doctors, laboratories, pharmacies, and administration for managing patient records, medical reports, laboratory results, prescriptions, employees, and appointment statuses.

Smart Notes Ultimate || [GitHub](#)

Technologies Used: HTML5, CSS3, JavaScript, Local-Storage

- Developed a privacy-focused notes application with rich-text editing, folders, tags, reminders, checklists, and offline access.
- Implemented AES-GCM note encryption, voice tools, automated backups, data import and export, and cross-tab synchronization.

Movie-Hub || [GitHub](#)

Technologies Used: HTML5, CSS3, CSS Grid, Flexbox, JavaScript, Local-Storage

- Created a responsive multi-page website for browsing movies, series, and cartoons with title search and category filtering.
- Implemented a persistent favorites system with dynamic content rendering, notifications, and synchronization across browser tabs.

CERTIFICATIONS & PROFESSIONAL COURSES

- Software Quality Assurance Engineering (Manual & Automation) - 2026 (80 hours)
- Front-End Web Development - 2023
- Programming Fundamentals Using Python - 2022
- Computer Maintenance - Mercy Corps
- Learn English Now 1 - Arizona State University - 2022
- ICDL (International Computer Driving License) - 2021
- Typing and Data Entry - 2024 (60 hours)
- Job Search Club (BDC) - 2025 (52 hours)
- English Level 2A - Finn Church Aid - 2016 (60 hours)
- English Course for Beginners - Finn Church Aid - 2016
- Communication, Interpersonal Skills and Conflict Management - 2015 (40 hours)

TECHNICAL SKILLS

- Programming :** HTML5, CSS3, JavaScript, Python, C++, Java, and PHP.
- Software Quality Assurance:** Manual testing, automation testing fundamentals, test case design and execution, bug reporting
- Development Tools:** Git, GitHub, Jira, Visual Studio Code, and Git command line.

- **Databases :** SQL Server, MySQL
- **Methodologies:** Agile, Scrum
- **General IT Skills:** Software troubleshooting, advanced Microsoft Office (Word, Excel, PowerPoint), and computer networking basics.

CORE SKILLS

- Problem solving and logical thinking
- Time management and task organization
- Communication, teamwork, and collaboration
- Fast learning, adaptability, and attention to detail

LANGUAGES

- Arabic: Native
- English: good
